PRE-QUALIFIED FOR	Civil engineering Environmental engineering
STATEMENT BY FIRM	Pine Tree Engineering, Inc. is a Maine firm specializing in civil and environmental engineering. Our well rounded experience includes the design of stormwater, water distribution, wastewater collection, roadway, parking lot, and marine projects for many Maine municipalities and State agencies. Members of our firm possess the knowledge and experience needed to provide creative, low-maintenance solutions for waterfront projects ranging in size from small pond boat launches to larger ocean boating facilities and piers. Pine Tree Engineering has designed ramps, piers, and other marine facilities that have been funded by municipalities and by Maine's Department of Agriculture, Conservation and Forestry; Department of Inland Fisheries and Wildlife; Department of Marine Resources; and Department of Transportation.
